

Catwalks

A multi-level catwalk allows you to expand upward, not outward

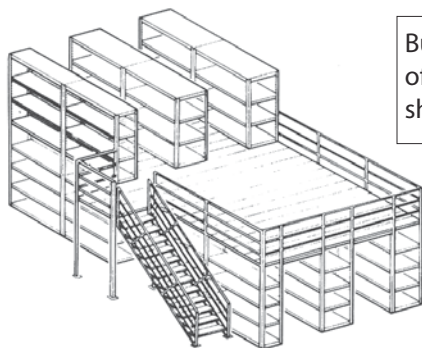

- One piece upright posts
- Boltless construction
- Shelves adjustable on 1 1/2" centers
- Access to all storage levels
- Rigid connections provide solid support for decking
- Unit widths up to 72"
- APH posts — "The Strongest in the Industry"
- Designed to meet individual requirements
- Specially designed and engineered to comply with seismic zones and local building codes. Consult your Rapid Rack representative for assistance.

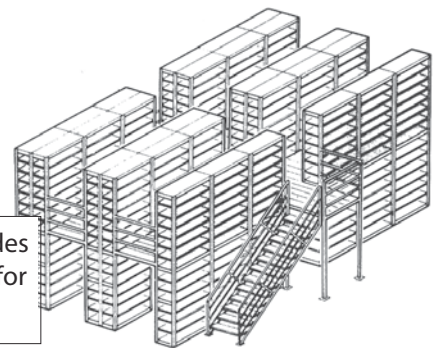

Catwalk design considerations

For preliminary design of a catwalk system the following must be considered:

- Adequate height
- Shelf sizes and capacity
- Number of shelves per unit aisles
- Catwalk loads
- Stairway access
- Obstructions (columns)

Bulk Rack Design provides wider spans of uninterrupted storage with greater shelf weight capabilities.

Space Saver Design provides multiple shelf levels ideal for small parts storage.
