With the use of two Rapid Rack Tee Posts you can combine Add-On units with individual Space Saver units to arrange economical rows of shelving. Start each row with a Space Saver unit and join the desired number of Add-On units to complete the row.

EXAMPLE: 1 Starter unit and 2 Add-Ons

Angle posts from Starter unit are used at each end of the row. DRB's are required on top and bottom levels for rigidity.

NOTES:

- 1) When shelving structure must conform to seismic requirements, consult your Rapid Rack representative for assistance.
- 2) Intermediate shelves which exceed 24" deep must include SRB beams across depth.
- 3) Particle board decking available, cut to size.
- 4) For Add-On units, add suffix "A"
